

The Tomi Salesvuo East Funk Attack is bursting with energy! - new single I Feel Surreal is released on Friday 20th September

Known for the energetic interpretation and live performance, East Funk Attack has been preparing their third studio album with *Full Power*. "I Feel Surreal" is the second single from their upcoming album and is released on Friday September 20th. The song is composed by the band leader Tomi Salesvuo and lyrics are written by Salesvuo together with long time companion Julia Vuorinen.

"I Feel Surreal song has a strong and energetic vibe where RHCP meets Janelle Monáe with raw Rock Funk sound! Funky Bass hook sets up a base from where the story takes you to the blue skies way up high! I Feel Surreal is a song about the passion for music that makes you feel superb and forget all your troubles! The chorus from the song nails it: "Music makes me feel like we are not all alone, It lifts me up and keeps me high when I need a kick, Stories like in movies – I feel surreal". Tomi Salesvuo describes the song

The first single from the third East Funk Attack studio album "Why don't you do it" was released in the early summer prior to the band's summer tour in Denmark and Germany. (Listen to: [Why Don't You Do It?](#))
